

Save time. Save money. *Heal The Claims Process™*.

Adopting electronic health care transactions in your practice doesn't have to be complicated, thanks to free toolkits offered through the American Medical Association's (AMA) *Heal The Claims Process™* campaign. Access these free toolkits, along with educational webinars on each transaction, at www.ama-assn.org/go/htc to help you effectively use key electronic health care transactions and realize the benefits in your practice.

Automate your *claims submissions* to reduce costs and hassles

- ✓ Minimize claims rejections and resubmissions
- ✓ Expedite payer responses and boost your cash flow

Slash costs and stay on top of your outstanding *claims status*

- ✓ Keep you informed about your outstanding claims, and about any potential snags that need your attention
- ✓ Cut back on time spent calling health insurers, or searching payers' websites

***Eligibility requests* that save money, reduce tedium, and improve service**

- ✓ Submit eligibility requests and receive payer responses more quickly and accurately
- ✓ Reduce claims rejections and spend less on collection and billing costs

***Prior authorization* enables faster payer responses and smoother transactions**

- ✓ Speed up health insurer response to your prior authorization requests
- ✓ Reduce costs of performing prior authorization by over 80%

Keep tabs on your billing with *electronic remittance advice*

- ✓ Stop worrying about lost explanation of benefits (EOBs)
- ✓ Minimize time and resources devoted to manual processes, such as waiting on hold and compiling faxes to payers

Get paid faster and more accurately through *electronic funds transfer*

- ✓ Save time spent on manual processes such as depositing paper checks and phone calls to health insurers
- ✓ Reduce the risk of lost or stolen checks
